Imperial Potentate Pays His Respects to the Past Illustrious Pote.

The Shrine party, headed by J. Paul Smith, of Portland, Me., imperial potentate, left Wednesday night for the Pacific coast, traveling in a special car as the guests of J. B. Silverwood, potentate of Alameda. A stop will be made at Phoenix to visit the local temple, en route to Los Angeles.

Imperial potentate Silverwood will go to Honolulu before returning to his home in Maine. Those who are scheduled to accompany him on the trip to Honolulu are James E. Chandler, Kansas City, imperial officer; A. R. Rickers, of Lewiston, Me.; J. G. Watkins, of Astoria, Ore.; and H. H. Cave, of Dallas.

Held Council Session.
The Shrine party called upon mayor Tom Lea, a past potentate of El Paso temple, Wednesday. The mayor was out in the city when the guests arrived. Nevertheless, a session of the council was held, and the Shrine voted an increase in the budget fund in order to pay the expenses of the present trip.

The Shrine party saw the city Wednesday afternoon as guests of the local entertainment committee, and at night were guests at a reception and dance given at the Teller club.

The visiting Shrine were greatly impressed with El Paso and praised the hospitality of the local Shrine.

SWEETEN SOUR
ACID STOMACH
WITH MAGNESIA

Impoverished of Bismuth Magnesia in Cup of Hot Water Promptly Stops Pain of Acid Indigestion. Relief Comes in 5 Minutes.

If things you eat don't agree with you and the sour, gassy, biting, and heavy in your stomach, you probably have what physicians call "hyper-acidity." Your stomach is secreting too much acid causing discomfort which is commonly and mistakenly called indigestion. Avoid all acid and indigestion for these are apt to further weaken the stomach and cause serious intestinal trouble. Instead get from your druggist a few ounces of the pure, Bismuth Magnesia and take a teaspoonful in a quarter glass of hot water after each meal. Bismuth Magnesia can never hurt your stomach and is the best possible form of magnesia to take in the stomach for sweetening or neutralizing the stomach acids which cause distress.—Advertisement.

The Importance of Healthy Kidneys

In the removal of waste material from the body, the kidneys are called upon to perform a very important duty. The failure of these marvelous and delicately constructed organs to properly do their work means retention in the system of poisonous matter. This poisons the system, and if permitted to remain results in severe backache, headache, torpid liver, constipation, and "bright's disease."

About 40 years ago Warner's Safe Kidney and Liver Remedy, a combination of herbs and other healthful ingredients was discovered. Its value in strengthening the kidneys and liver was at once appreciated. And it stands as one of the standard remedies in the treatment of diseases of the kidneys and liver. Many persons suffer from diseases of the kidneys and liver, and the use of Warner's Safe Kidney and Liver Remedy will invariably improve your health, and make you feel that life is really worth the living.

It is sold by all druggists in 50c and \$1.00 sizes. A sample free if you write. Warner's Safe Remedies Co., Dept. 298, Rochester, N. Y.—Advertisement.

"The Birth of a Nation"

By REV. DR. CHARLES H. PARKHURST

It is impossible to witness the film drama "The Birth of a Nation," now being shown at the Liberty Theater, and not want to say something about it.

Every one who has seen it is saying something about it. When one has been crowded upon, pressed down and run over it is against nature not to make some kind of an outcry.

That is the way one feels when coming out of the Liberty Theater. The thing is vast. It is overwhelming. Nothing like it has ever before been put upon the stage.

The tension of the performance is but a single feature of it, but it is that which one feels most poignantly after three straight hours. It begins in an easy way, but commences soon to find its muscle and goes on to the end, pounding upon one's senses with blows that come heavier and heavier, more and more rapid.

It is not apparent what are the grounds of the objections urged against it nor what is the animus of those who are scheming to have the exhibition prohibited.

The national board of censorship has approved it and reaffirmed its approval. The popular indorsement which the play has since received by the thousands who are seeing it daily will require more than small prejudices or moral eccentricities to disturb. In the meantime efforts to suppress it are thus far successful in nothing so much as in giving it wider and more remunerative publicity.

The intimate familiarity which David W. Griffith has shown with the events of the reconstruction period along with the detailed scholarly study which he has made of the wider territory of events which the play covers renders the production one of surprising educational value to those who were either young children still or even unborn in the stirring years of 1860 to 1870. A boy can learn more true history and get more of the atmosphere of the period by sitting down for three hours before the film which Mr. Griffith has produced with such artistic skill than by weeks and months of study in the classroom.

This drama is a telling illustration of the possibilities of motion pictures as an instrument of instruction in history.

The criticism that it exhibits the negro in an unfortunate light and that it is calculated to engender racial animosity is fully met by the consideration that it represents the negro, not as he is now at all, but as he was in

the days when he had just had the chains broken from him and when he was rioting in the deliciousness of a liberty so new and untold that he had not yet learned to understand it and was as ignorant as a baby of the way to use it. It is in this respect exactly true to history, and if it reflects upon the negro as he was then it is a compliment to the black man of today. An exhibition of lawlessness might not have been proper thirty or forty years ago. Such proprieties change with the passing of time.

The battle scenes which Mr. Griffith has depicted are of surpassing power and realism. Every lover of peace must experience a certain painful gratification that just at this time the ghastly horrors of carnage can be brought so closely home to the eye. It is one thing to read about the trenches, the killing and the corpses. It is quite another thing to have them bodily pressed before the eye, with all the dramatic fury that marks conflict at close range. A well written description of a battlefield allows the place and the occasion to be invested with features of magnificence, with the heroism of the contestants and the glory of the victors. On Griffith's screen we see the real thing. There is no magnificence, no glory, but horror, brutality and stark butchery. It sickens with the sense of man's inhumanity to man. It makes war despicable and devilish. It conveys an indelible lesson to all who have been bewitched by the hideousness of war with tinsel drapery.

There are also scenes of surpassing dignity and beauty done by a master artist's hand—the signing by the president of the proclamation for volunteers which marked the end of the old regime, the surrender of Lee to Grant and the assassination of the president in Ford's theater.

The tender affection in which Mr. Lincoln is held was manifested in the way the great audience received the scene of a heartbroken southern mother pleading with him for her son, sentenced to death as a guerrilla. Every eye was dim with tears in the straining hush that fell on the theater. What might not our country have been saved had the problem of reconstruction been left to the great heart—the one man who compassed within himself the resources of the intelligence, experience, breadth and sympathy of Abraham Lincoln!

"The Birth of a Nation" has my unqualified approval.

14 YEARS Ago Today

From The Herald of This Date, 1902.

At the initial session of the Democratic county convention this morning, Latham was endorsed for governor; John M. Dean for congress; Curtis for railroad commissioner; Bell for attorney general; Wells for land commissioner; Neill for lieutenant governor; Lefebvre for superintendent of state instruction; and C. K. Kaufman for state controller. The convention was called to order by chairman John M. Dean.

R. S. Peale, accompanied by his wife, arrived in the city from New York to spend a few days.

A. L. Barney, livestock agent of the Denver & Rio Grande railway, arrived in the city on business.

J. A. Speller, city ticket agent of the Southern Pacific railway, has recovered from an attack of pneumonia.

A. Schwartz, proprietor of the Fair dry goods store in this city, returned from an extensive eastern trip this morning.

Additional information concerning the killing of William Gardner, at Laramie, Tex., 20 miles east of this city, was brought to El Paso today by witnesses.

J. C. Stubbs, third vice president and general manager of the Southern Pacific railway lines, arrived in the city over the Rock Island and will remain here until E. H. Harriman arrives from Mexico.

Work commenced today on the first 13 miles of the El Paso & Southwestern railroad out of this city and it will be pushed rapidly to completion. Messrs. Crook and Hoskins, of Pueblo, Colo., have the contract for the work.

During the past week the distinguished name of Paul Jones succeeded in liberating 25 prisoners in the city jail this morning. When he showed his face to the jailer he had a first class case of smallpox. All of the 25 vagrants in jail were vaccinated and released.

The Only One.

They say that wealth doesn't always bring happiness, but most of us are willing to try the experiment.—Prof. Simp.

EDDIE THURSDAY, the great evangelist, pounded the table with his fist.

"I tell you men," he repeated, "impatience is the world's greatest vice. It's a rough-necked, lantern-jawed, evil-eyed, low-browed, peck-marked, bald-headed cur! Is there, I ask, is there a man in this great assembly who has never spoken a cross word to his wife?"

A gutty silence fell on the immense crowd of men.

Some looked the other way, some closed their eyes, a few hardened ones looked the same way.

"Is there one, I ask?" belted Eddie Thursday.

There was another silence, somewhat more gutty than the first, and then a general-faced, stout man arose.

"Brother, I am proud of you," shouted Eddie Thursday.

The sunny-faced man coughed.

"Perhaps I ought to say that I am a bachelor," he said apologetically.

Snatching up the two-gallon water pitcher, Eddie Thursday drained it at a draught, while seven ushers made a dive for the stout man.
